Publication Schedule

The Standard is published on Monday of each week with the exception of the week of July 4 and the last week in December.

Credit & Agency of Record

New accounts must complete a credit application prior to placing advertising. Agencies contracted to place advertising for both denominational and commercial clients must complete an Agency of Record Agreement.

Deadlines

Material for publication is due at 12 noon 10 working days prior to the Monday publication date. Because of the limited space available for advertising, reservations for space are strongly recommended.

Cancellation

Notice of the cancellation of a scheduled ad or a change to the scheduled run date for an ad must be received in writing at the Standard before the material deadline. Ads canceled after the material deadline will be billed at the original price ordered.

Liability

The Baptist Standard is liable for error of our composition only to the extent of credit or correct rerun of the ad or affected portion. Credit is allowed for the first insertion only. Notice of error must be given in time for the correction to be made in a subsequent issue.

Discount Contracts

A signed contract specifying the insertion dates and ad size is required before an advertiser can qualify for the frequency or bulk discounts noted on the rate sheet. The rates specified apply only when the number of contracted insertions is reached by the advertiser within the contract period. Discounts are posted at the end of the contract period.

Ad Content Approval

All ads and inserts are subject to final approval by the editor. All decisions are final.

Additional Charges

There is no charge for straightforward ad composition and camera work. However, additional time required for complicated composition or additional camera work to modify the ad will be billed in addition to placement rates.

Billing & Commissions

All rates are net; advertising agencies must add commission to quoted rates. Credit may be granted on approved accounts only. All advertising must be paid in advance until an account has been established.

Special Inserts & Wraps

Because the Standard is published on a high-speed web offset press, we offer a variety of economical special sections. These special sections can either be run in the center or as

wraps around the outside of the publication.

Special sections can be printed on newsprint or uncoated bright white book-paper stock. We offer a variety of ink and printing options to fit your needs. For specifications not listed on the chart, prices will be quoted. All designs must meet postal requirements.

Production Requirements

Black & White – Ads may be submitted as camera-ready copy, negatives, PMT, Velox, or black and white slicks. Negatives should be right reading, emulsion side down. Halftones should be 100-line screen. Ads submitted as data form on storage media (floppies, Zip, CD, etc.) must be accompanied by a printout version. We will pass on any additional charges from the printer required to make the ad ready for printing.

Color – Advertisers using four-color process for ads are strongly urged to provide composite film separations specified for web-printed newsprint. An 85-line screen is recommended and a 100-line screen is maximum. The recommended ink density is 260.

Borders – A border is required on all display advertising. Ads which do not have borders will be reduced in size, if necessary, to accommodate a border. Bleed pages are not available.
