

When A Nation Walks Away From God

When a nation walks away from God, its only destination is Hell!

That nation's demoralization and destruction are guaranteed by the Devil himself.

Today we want to look at the State of the Union between God and the United States of America where we are and where we are going. To know where we are going, we must understand the nature of God, His being, and what He expects of us as His people and a nation under His authority. He has given us instructions about how we are to live and the consequences of disbelief and disobedience. Just look at Leviticus and Deuteronomy in the Old Testament and Jesus' words in the New Testament.

History will repeat itself, and our Just God will not tolerate our unrepentant sins and those of this nation. He will bring His wrath upon all of those who disobey and do not fear Him, and they will end up in Hell for eternity. God's coming wrath is a safe bet whether you are a gambler or not! Let us explore the future of the USA based on God's Word and His actions in the past.

We say we believe in God, the Living God, Jehovah God, and in the Holy Trinity. We pray to Jesus. But do we believe and obey His Word? Are we convinced that He is a Just and never changing God, the same today, yesterday and tomorrow? He is! Then why are we living the way we are as a nation, in disobedience and tolerating the intolerable sin?

Remember, You are what you Tolerate. Please hold that thought for now! Also, Tonight I want you to think about; Are we a nation "Under God and Indivisible"?

Know that -- When a Nation ultimately decides to walk away from God, they invite God's wrath upon themselves. It does not matter how wealthy they are, how large and powerful their military is, nor how many laws they have on the books; they have sealed their destiny, and their destination is Hell! The only question is, how long will it take for God to pour out His Wrath!

The road to Hell begins with the turning away from God, a crumbling of moral foundations, a little bit here and a little bit there until the cracks start to show. Consequently, as these cracks become more substantial, they invite corruption, greed, and further decay of any morality that might be left. Soon each person does whatever is right in his own eyes.

If it feels good, "DO IT."

The Devil smiles and says,

"Let the party begin!"

Soon there is an ever-increasing degree of lawlessness over the land like a dark cloud; idol worship begins with sports heroes, the mega-rich, Hollywood's beautiful and elite, and material things like new luxury cars, bigger houses, MORE POWER & MONEY, all become gods and displace the one True God. Pornography is everywhere, in the magazines, on billboards, on TV and it saturates the Internet. All this changes the culture and what was unacceptable a decade ago becomes the norm today. And along with the pornography comes Drugs, Alcohol, Abortion, Sexual slavery, and trafficking; Corruption becomes more and more prevalent, and crime spirals out of control.

Many police and Government agencies look the other way or abuse their power in the persecution of some and the protection of others who continuously violate the law. Many elected officials are bought and sold; they are corrupt; they lie and fill their pockets with cash at our expense. Some are even convicted felons at the time they are elected. (they should not be allowed to represent anyone). Others are genuinely corrupt in every sense of the word, lying and cheating their way for more and more power. The deep dark state evolves, and the government is for the governors and not the Governed. Sad!

Their actions say, **"Down with the Bible, the Constitution, and the Freedoms our forefathers fought and died for. It's a NEW AGE," but it is an unfortunate new age!**

Each person establishes their own values, and if they are not caught breaking the law, it is legal. The meaning of certain words and phrases are redefined to fit the situations, and history is rewritten to suit those in authority. Lies, Lies and More Lies, to the point that the next generation will not know what to believe. There is no truth, because there is no True God among them. Their gods are their money, influence, and power, and they reign as their sovereigns. Lives are bought and sold for their pleasure. Christian morality is a thing to be eradicated, scorned, and persecuted at all levels; first, behind the scenes and then openly in defiance of the Living God.

However, know that God will not be mocked, He is in control, and in His time, He will pour out His Wrath on them!

Today, the government is weakened through all-inclusive religious and political diversities, many of which are incompatible and in direct opposition to one another. God is removed from all branches of Government, and those who believe in Him are bound by new laws no longer respecting their religious values or morality. The emerging ruling class has no vision, no ethics, no morals, no unifying beliefs, only disbelief or denial of the True Living God. They believe only in the gods of their own making. Idolatry has become their way of life they worship the evils of this world!

They want to take God out of the Government and community because they are then free to do anything as they please. They do not want anyone telling them what they can or cannot do. They want total freedom, and that freedom will eventually destroy them and us too. Everyone wants their rights, and those rights (or Wrongs) become their enslavement, enslavement to the devil because of the sins enjoyed.

The train to Hell is picking up speed, and getting off is becoming harder and harder or getting off is no longer an option. The “Point of No Return” is approaching quickly. Know that the devil is in control of his domain here on earth, but he is ultimately under God’s power, and he knows it.

The media cries out, promoting all kinds of immorality; new heroes are made of corrupt politicians, vile sports figures, and unethical and immoral Hollywood elites, to name a few. They are filled with abusive language and hatred of their fellow man, and are driven to make others accept their sinful, morbid way of life. When the darkness rolls in, everything is hidden, and that’s when the party gets going.

“Come join us, and live life to the fullest is their battle cry.”

Pain and suffering are building, family values and morality are tossed aside, but no one sees it. Again, the devil has blinded their eyes with the immediate pleasures of their immoral lifestyles. There is no consideration of the consequences, and lives are ruined, families are torn apart, and spiritual death occurs! When will it end? When God says, it will end!

One of the most misunderstood, misconstrued, and most damaging belief in “OUR COUNTRY” today is the idea of the separation of Church and State. This idea has led to the moral decay of our government and our nation and our ability to have almighty God’s involvement in every aspect of our life as He intended. Our Republic is based on the God-given freedoms and equality of men under His guidance.

To the Framers, in general the word religion meant all denominations of the Christian faith.

We were never to be governed by minority politics, special interest groups nor corrupt individuals that make laws to benefit themselves and their friends or patrons at the expense of others. Evil renews its cry for the separation of Church and State. It wants to remove God from everything, i.e. take God out of the schools, out of society, off the football fields, off the airwaves, out of the public eye, remove His words from print, burn the Bibles, water down true religion, close down the churches and persecute all who even think about serving the Living God.

Our freedoms are under attack; we have met the enemy and it is our way of life, our culture, and our passivity toward the problems. We as individuals fail to take responsibility and to be held accountable for the world in which we live. We are where we are because we have lost our zeal for God or have forgotten Him. We have watered down our worship, forgotten our servant attitude, and failed to live up to our covenant with God. We should be ashamed and fall on our faces asking forgiveness.

We must pray that God will draw this nation back to Himself; only He can do that!

We tolerate sexual sin all around us - Homosexuality, Bisexuality, Lesbianism, Transgender, sex changes (especially in very young children), marriage between two men or two women. Marriage is between a man and a woman, and not between two men or two women or another human being and their dog. At the rate we are going, these “zoocontractual unions” (human and beast) will occur somewhere on the globe very soon.

*This is a bit of **“Fake News”** on the internet; an indication as to where some appear to be going.*

“Nov 5, 2019 - Norway: Marriage between humans and animals legalized ...”

These are the signs of a very sick and weak society, one that is forever sinking deeper and deeper into the devil’s depravity. Wake up America before it is too late! If we do not know what God thinks about this, we should read his word; it is apparent. The race down this road to Hell will not stop until God stops it; pray that He does so quickly. Fear Not -- God will take care of this in His time and in His way!

God has placed man as the head of the household, the wife as his workmate, helper, and a best friend and equal partner in all things, and the children are to be respectful to both.

When a government dictates ungodly relationships and takes over the guidelines for raising and educating the children and establishes laws that infringe on the rights of the parents and are counter to God's natural laws, that government is acting like a tyrant. The people must rise and take back their God-given rights as did the 1776 revolutionists when they declared independence from the English tyrant – King George!

Remember – Jesus loves the little children. He loves all of us. Children are God's gift to humanity and through them we will either live or die. In the Old Testament, the pagans and others often sacrificed their children to the pagan god Molech (the god of the Ammonites), and God's penalty for doing this was death to the perpetrator.

Do you think God has changed His view on this?

Today, our nation sacrifices, "Kills" millions of our children in the names of Prochoice, Parental Rights and personal freedom, etc. Is this not calling down the wrath of God?

Well, Jesus gave us a distinct picture of what would happen to those who hurt or cause a child to stumble. It would be worse than being thrown in the ocean with a millstone around the neck — a pretty clear picture of what He thought.

Planned Parenthood and those who support them will require a lot of millstones. Since Roe V. Wade, we have killed 50 times more babies here in the States than all the soldiers lost in all the wars in US history. Now think about that for a moment!

Today, abortion, even up until the moment of birth, is justified by calling it Prochoice. Over 62 million babies have been KILLED since the ruling on Roe V. Wade in 1973. (Dallas Texas) A society is dreadfully sick when you can kill a child without any consequences and a person can be fined and go to jail for cruelty to an animal.

What have we become?

A wise man once said, "**You are what you tolerate.**" We call ourselves Christians. We have to be kidding ourselves. Where is our hope, faith, and response to what is choking the life out of our nation?

Did you know that Pornography and Sex trafficking is a **\$32B+ business a year and growing?** (That is more than enough to build a wall on our southern border and have money leftover or buy 880,000 new cars at today's average price). Children are beaten and raped repeatedly; women and young boys forced into sexual slavery; pornography is ram-

nant in the media and online. This culture contributes to the breakdown of families, loss of morality, and the disintegration of the moral fiber that has held this country together under God.

Human trafficking is EVIL.

It targets helpless people during their most desperate times, instilling shame and fear while breaking their spirit. It is also a crime that preys on the youth, robbing them of their childhood innocence and stripping them of all dignity. Think about people like Harvey Weinstein and Jeffery Epstein who play the political game so well as to garner the protection of those at the top of our Government.

What is wrong with this picture?

God knows and so does everyone else.

"One Nation under God with Liberty and Justice for All -- is becoming a JOKE if it has not already." Just think about our two tier justice system and the lack of prosecution of party elites and the severe punishment of others for much lesser infractions of the law. In recent years the DOJ and the FBI have made a mockery of justice. This was driven by personal desires for more and more POWER.

Much of our societal degradation is supposedly based on free speech. The first amendment was not for the protection of pornographers, pimps, corrupt individuals, and organized crime or the provision of misinformation to the public. Our laws are perverted and in many cases, protect those who prey on society.

Whatever happened to the Patriotism? In the past we voiced "In God we Trust" and started each school day with a prayer, a reading of a bible verse and the pledge to the flag of the United States of America. Little by little, our nation is undermined in the name of diversity, tolerance of the intolerant, and we have allowed laws to be passed that take away our freedoms and God-given rights.

Stand up America before it is too late. In the late 1930s in Germany no one stood up for the Jews and then the Christians, and "Whoever" and so on it went until there was no one left to stand! History is repeating itself right here in America today!

Have you noticed if we criticize anyone or anything, we **are called intolerant?** Or it is called "Hate Speech" and our rights guaranteed under the 1st amendment are trampled on by the violent left.

If they shout loud and long enough, become physically abusive, violent, and use the courts with liberal judges, they can silence the moral majority with their offensive actions and rhetoric. What is this country coming to – or more precisely, what has this country come to?

It is a sad day in the life of a patriot when an organization like INTIFA can bully, beat, intimidate and terrorize others and be called by some in the Government a tremendous activist movement for the good of the underprivileged. The reality is that ANTIFA is a domestic terrorist organization protected by many influential people in a major political party. Likewise, the actions of some of the leaders of that party reflect the same tactics that are being used by ANTIFA.

They are calling for open rebellion, physical abuse, intimidation, and harassment of ALL who might oppose them. Hence, lying, cheating, bribery, blackmail, and corruption are only some of the tools used by those who want to destroy America and our Christian way of life. Cry out to God for His protection and live in obedience to Him, if you're going to survive. Otherwise, you will be taken with the rest of the nation and be on board the train bound for HELL.

The Socialists and Communists understand that if they can win the hearts and minds of the next generation, they can rule the world. Well, guess what? Here in the USA they are winning; for the most part we have passively abandoned the fight. The social media and the majority of the “So-Called” news organizations with the backing of liberal billionaires are changing the way we see things, hence changing our world views and our culture.

Propaganda is a mighty weapon used in psychological warfare to win the hearts and minds of all.

I believe Joseph Stalin once said, “If you tell a lie effectively multiple times, people will begin to understand it and when they (the people) tell the same lie to others and others believe it – you’ve won the battle.

The battle is being won but not by the Christian Community or us individually!

The Internet is the most potent weapon in the world today. And as with any weapon, it can be used for the good of humanity or its destruction. What began as a government research project in the 1960s to link universities together that were work-

ing on government projects has bloomed into the Worldwide Web. Its infrastructure is ever-expanding at an increasingly rapid pace. Today over 4.5 billion people have access to the internet. That’s over half the world’s population. This year another 500+ million people will gain access to the internet.

This worldwide digital highway brings you whatever you ask for, i.e. news, research, history archives, videos and music of all kinds and education alternatives never before possible. And it also brings the dark side of life into your home with pornography, sex for sale, all sorts of criminal opportunities, and the eroding of all moral values once held sacred.

The Web is a massive infrastructure used by nations to aid in the control of their populist and economies, and a lot more.

Remove the Web, and you set the world back a century or more and create chaos. Technology has again unleashed a monster as it did with the atomic bomb in 1944.

Today we see the introduction on a large scale of Artificial Intelligence (AI) at multiple levels throughout the internet and elsewhere. Business sees AI and the internet as a competitive advantage, militaries use it in war simulations, logistics, training, and other ways, and Governments use it to spy on others and influence and control those governed and a lot more.

You know, of course, that computers only do what they are programmed to do! So the questions are “who is doing the programming, and what are the strategic objectives?” Could the long term strategic objectives be Power, Influence and Control of the minds of the world?

The evidence says the answer is a resounding YES! **And back to the future, who is programming the computers?** It seems to be a consortium between the mega tech firms like Google, Microsoft, Apple, and the big Governments like ours, the Chinese, and others desiring Power and Influence on the World Stage.

A recent statement by one of the leading Artificial Intelligence organizations is very insightful and fearful. **“We have not completely designed the artificial brain, which can feel the emotions... However, Next-generation A.I will control human beings by reading human minds.”**

What was not stated was, and by reading the human minds, we can feed their thoughts, control their emotions, desires, and provide the activities wanted. We can do this based on virtual reality, drugs, and other means. Then we can control their thinking and their actions, change their culture, and worldviews to conform to what we want.

If this does not scare you, you are DEAD!

As the train to Hell picks up more speed, it builds momentum; the faster it goes, the harder it is to stop, let alone get off or reverse its direction. Today we are all on the train to Hell concerning this nation.

Only God can stop it and turn it around.

We as individuals can pray and get actively involved but, if we do not get down on our knees and humble ourselves before God continually asking for His forgiveness of our sins and those of our nation, the train will only pick up more speed and arrive at its destination sooner rather than later.

When we humble ourselves and ask for His forgiveness, then He will hear us, and He will answer us when it is in His WILL.

I often hear people say that we need more Faith. Well I hate to tell you, but it is not about how much Faith you have but the quality of your Faith and Obedience that will determine what God will do.

Remember, history will repeat itself, and a Just God is in control of it all.

A Quick History Lesson -- God will curse a person or a whole nation because of their opposition to His word and His will. Recall, Adam & Eve, Noah, Sodom & Gomorra, the curses on Pharaoh and Egypt, and the exiles of both the Northern and Southern Kingdoms, etc. In every case, there was a recurring theme.

“They did not believe, and they disobeyed God, and then God punished them.” Today, are we any different than those nations?

Our Nation is walking away from God and if it continues, we will be destroyed! Do you believe that God never changes, the same today, yesterday and tomorrow? If so, you can see the future – but the question is — what will you do about it?

The TRUTH is -- The people, who repeatedly and continuously disobey God and refuse His call for repentance can expect to experience His terrible judg-

ment and it will come! However, when we are faithful and trust God, He will see us through all the difficult times. Our job is to trust in Him, humble ourselves, seek Him continually, live productively, and obey Him and Worship Him faithfully in the spirit until He takes us home to Himself.

The choice is yours!

Ride the train to Hell or rededicate your life to God and live productively in a way that is pleasing to Him until He returns.

Amen

Thank You!

Commentary -

We should get down on our knees and come to Jesus, always asking His forgiveness of us and our country for all the unrepentant sins we have committed. We should seek out others of like mind who want God in Government and want to live by His standards. If we are going to change our culture and our country's destination, we need to be involved in the political process, especially in the 2020 elections. We need to make sure everyone is registered to vote and help them vote for God and Country. Pray for God's hand in all that we do so that He will bring us together and back to Him.

Final Thought:

I am surprised at how many Christians who are concerned about their future and the futures of their children and grandchildren are not registered to vote nor vote in our elections. God expects all of us to take an active role and be productive in supporting His kingdom.

We all need to pray, work, and vote to slow down and reverse the trends discussed in this sermon. Without fervent prayer, obedience to His Word, and actively participating in the election process, we will all be on the train to Hell.

David L. Baker
